HARVEY IN ADDRESS TELLS VIEW ON LEAGUE

(By Associated Press)
LONDON, May 20.—Newspapers of this city feature the address last night by George Harvey, United States ambassador, at a dinner given by the Pilgrims.
The announcement was made by Colonel Harvey that he had been directed by the state department in Washington to represent America in the proposed meeting of the supreme council at which the Silesian question is to be considered, but he declared the United States under no circumstances would be led into participation in the league of nations.
Ambassador Harvey alluded to the bonds binding England and America in a speech on his arrival abroad. At the rate some bonds are being paid they will be uniting us for a long time.

SAYS ODESSA IS MADHOUSE FROM SOVIETS' RULE

(By Associated Press)
CONSTANTINOPLE, May 20.—Mrs. Anna Keiser, of Philadelphia, who recently arrived here after having been allowed to leave Odessa as a British subject, says that in leaving that city she felt as if she were escaping from a madhouse. Odessa now is ruled by the bolsheviks. Mrs. Keiser is the widow of Eli Keiser, formerly of Philadelphia, who died in Odessa, and she is the daughter of Mrs. B. Willer of Chicago, to whose home she hopes to return.
"I want to spend the rest of my time until bolshevism falls telling what terrible people they are," she said. "It is a crime in soviet Russia to criticize. If any of us complained of being hungry we were taken before brutal and illiterate officers who are trying to do away with intelligent people and were thrown into prison to die of typhus and hunger."
"I got along partly because I wasn't afraid. After my husband died I didn't much care what happened to me. I lived by giving lessons in English. Once when women without working papers, mostly widows and daughters of well-to-do families, were being gathered together and sent to the farms and garrisons to clean up for the soldiers, the guards tried to take me. I said, 'you can shoot me right now, but go I won't.' So they let me pass."
"I had to leave as a British subject because I was always told that the Americans had not been asked for as was the case of the English, Italian and French."

PROPAGANDA PLAYS NO SHORTAGE OF FRUIT EXPECTED FROM FREEZING

(By Associated Press)
WASHINGTON, D. C., May 20.—Damage to fruit crops from freezing in some sections of the country has not resulted in a general shortage, the department of agriculture said today.
Georgia peaches and California cherries already are flowing to the markets, while the strawberry crop is said to be abundant in several places.

ELECTRIC GOLD MINES COMPANY HAS REAL MINE

The old Darrough mining property at Weepah, Nevada, was purchased some months ago by Frank E. Horton and his associates and was incorporated under the name of the Electric Gold Mines company. A number of months was spent by the purchasers in prospecting and development work before any real decision was reached as to the possible commercial value of the property. At about the time of the Tonopah discovery a number of different interests were at work blasting into the numerous quartz outcrops that are scattered at random over the surface and a number of creditable showings were opened up, but the excitement attendant upon the discovery of Tonopah proved too much for the early settlers at Weepah and naught was left for Mr. Horton and his immediate predecessors but numberless "dead soldiers" and 15 or 20 openings into the ledge matter.

Mr. Horton began a systematic search for the values that the appearance of the country warranted and he has been rewarded in no mean way.
Seven of the old shafts have been reopened and in each case ore of a milling grade was brought to light. The average value of over 100 samples recently taken from as many different points in the old workings has been between \$8 and \$10 per ton. This showing was sufficient to warrant more extensive developments and the explorations during the last 30 days have shown values far in excess of those taken from the old workings, and it is safe to say the millable product will average over \$12 per ton.

The main shaft at the top of the hill opened up on the 75-foot level a vein of commercial ore over 70 feet in width. In shaft No. 1 north the vein is 26 feet wide at a depth of about 60 feet. In shaft No. 2 north it is 10 feet wide at 30 feet depth. In shaft No. 1 south it is 30 feet wide at 75 feet depth, and in shaft No. 2 south it is eight feet in width at a depth of 25 feet. The strike of this ore shoot is north and south, or nearly at right angles to the diorite footwall, so that it is in the current opinion of those who have investigated that this is but one of a number of similar shoots of ore.

In three of these shafts high-grade ore has been found and the pinnings of the last few days really startled the visitors from San Francisco. In shaft No. 1 north the values on one side run uniformly \$10 per ton, while on the other the average is \$17. Conditions such as this are found at a number of different points on the property, so that one does not hesitate to say that the mine is one of unusual promise.

The main shaft has been equipped with a gas hoist and a suitable air compressor and this shaft will be sunk as rapidly as possible to the 300-foot level. Laterals with numerous crosscuts will be driven on the 200 and 300-foot levels to determine if possible the extent and value of this ore shoot, which, if it holds as it gives promise of doing, Mr. Horton has one of the "big properties" in Nevada. Water has been developed within a reasonable distance of the mine and a pump has been placed at the well recently dug. A number of comfortable dwellings have been erected and every facility for pushing the work has been procured and a crew of 10 or 15 men is busy. The new hoist was started on May 18 and the shaft already down to the 50-foot point, will be rapidly sunk.

Frank Ish and associates have begun work upon their property, which adjoins the Electric property on the south, and have erected a comfortable dwelling on the towaste of Weepah. Mr. Ish expects to begin mining operations at an early date.
The locators have been busy and claims have been staked in every direction over an area of three or four square miles. It looks like a summer boom for Weepah and it is believed that stamps will be dropping before the close of the year.

TONOPAH GIRL GETS DEGREE
Miss Letta Sloan of the high school faculty received her degree from the state university Saturday, having completed her course of study in January.—Virginia Chronicle.

LENINE AND TROTSKY DIFFER ON QUESTION

(By Associated Press)
LONDON, May 20.—A Helsingfors dispatch to the Central News today says that sharp differences of opinion regarding the composition of the Russian soviet government have developed between Lenin, the bolshevik premier, and Leon Trotsky, war minister, at this week's meeting of the soviet council.
According to Moscow reports, the dispatch adds, Lenin advocated inclusion of representatives other than bolshevik parties, but Trotsky severely objected and requested an adjournment of the debate.

WILL BURN NEVADA COAL AT YERINGTON

The development of coal properties in the Coal Valley district has reached a point where it will be commercially used by the Yerington people next winter. This will be the first section in Nevada to be supplied with a home product.

Why not have Tonopah follow in the footsteps of Yerington? There is an abundant supply of coal at Coaldale at the Darms coal mines of a high quality, which can be laid down in Tonopah at a much lower cost than the Utah product.

MURDER CHARGE AGAINST CHILD WIFE QUASHED

(By Associated Press)
FARMINGTON, Mo., May 20.—The first degree murder charge against Mrs. John Parsons, 13 years old, in connection with the death of her 6-year-old stepdaughter, Lily, was dismissed in circuit court here today. A charge of fourth degree manslaughter was immediately filed against the child wife.
After hearing the murder charge dismissed, the child wife said: "I didn't do it on purpose." The court explained the action was taken because of the defendant's age. The little girl was shot two months ago. Mrs. Parsons said the shooting was accidental and John Parsons, 10 years old, the slain girl's brother, testified at the inquest that the stepmother shot the girl when she objected to having her hair combed. He since has said he does not know how the shooting occurred, as he was so excited.

BILL TO SUSPEND SLACKER PUBLICITY

(By Associated Press)
WASHINGTON, D. C., May 20.—A bill under which the war department will be directed to suspend publication of so-called "slacker lists" pending further investigation as to correctness, was introduced today by Senator Stanley.

SINN FEINERS AMBUSH 21 AT WESTPORT

(By Associated Press)
GALWAY, Ireland, May 20.—Sixty men ambushed a district inspector of constabulary and 20 policemen under him at Westport. One constable was killed and one wounded and four of the ambushing party were killed and six wounded.
The police attacked the ambushers' entrenched position and carried it. The ambushers fled across country, pursued by government forces. Arms, ammunition and bombs were captured.

BOMB SUSPECT IS BEING HELD WITHOUT BAIL

(By Associated Press)
JERSEY CITY, N. J., May 20.—Giuseppe Pippo, charged with conspiracy to destroy the United States assay office in New York in connection with the Wall street explosion last September, was held without bail for a hearing May 26 by the United States commissioner here today.

BOOZE LID OFF FOR FORTY DAYS IN CALIFORNIA

(By Associated Press)
SAN FRANCISCO, Cal., May 20.—Unless municipal police act to clamp it down, the "lid" is to be lifted tonight on the Pacific coast. Various libations, from hard cider to a sort of whiskey known as "tailspin" will pour forth in a flood that will last the same length of time as the official inundation, 40 days and 10 nights. In some sections, at least, it promises to be as hard to combat, prohibition officers say. Stern enforcement compelled by the exhaustion of the appropriation, will reduce the state enforcement force to two, one in Los Angeles and one in San Francisco.

The district supervisor's force will be reduced to 12, three in California and nine in the remaining territory of Washington, Oregon and Nevada. A total of 41 men are being dismissed until July 1, when the next appropriation will be available.

THIEVES BACK UP TRUCK AND TAKE GROCERY STORE

(By Associated Press)
MONTEBELLO, Calif., May 20.—When one of the Allen brothers opened the front door of what was yesterday his grocery store, he found he had gone out of business early today. Thieves had broken in the back way, backed a couple of large trucks up to the rear of the building and carried away every vestige of stock. They left the fixtures. The loss is \$5,000.

BUILD ROADWAY AROUND ANCIENT HAWAIIAN ROCK

(By Associated Press)
HONOLULU, T. H., May 20.—Even military necessity bow before sentiment. This was exemplified here recently when a military road under construction back of Schofield barracks, 25 miles from Honolulu, took a detour to avoid an ancient Hawaiian landmark.
The road was being constructed through the Kolekole pass of the Waianae range when it came to an ancient Hawaiian sacrificial stone which balances on the almost knife-like edge of the pass. The stone was in the way of the engineers but, under orders from Major General Charles G. Morton, in command of the Hawaiian department of the army the route was altered to pass the sacrificial rock and leave the reminder of ancient days intact.

SOME SHOWER

Rain commenced to fall this morning at 3:30 o'clock and continued to fall most of the day. Up to noon .35 inches had fallen. During the afternoon small showers added to the morning's precipitation.

APPROVAL OF L.A. BASE URGED IN TELEGRAM

(By Associated Press)
WASHINGTON, D. C., May 20.—Members of the California congressional delegation were urged in a telegram from the Los Angeles city council to approve the navy department plan for the establishment and enlargement of naval bases on the Pacific coast.
Curtailment of any part of the department's program, the message said, "would be a disastrous and irreparable blow to the measures planned for the defense of the country."

ANNULMENT OF MARRIAGE GIVEN CAPTAIN SHULTZ

(By Associated Press)
GREEN BAY, Wis., May 20.—The marriage of Captain Wallace S. Schultz of Milwaukee to Princess Nadejda Troubetskoy was annulled today by Circuit Judge Grass. The princess now is said to be in San Francisco.
Schultz testified yesterday that the princess had another husband, Victor A. Turin, at one time an officer in the Russian Imperial Guards, who had been reported dead, but who, Captain Schultz said, was found to be residing in the state of New York. He added that no divorce had ever been granted the princess.

EXPECT LEAGUE MODIFIED SO AS TO ADMIT U. S.

(By Associated Press)
HONOLULU, T. H., May 20.—That the covenant of the league of nations will be modified to permit the entry of the United States into the league and that the United States eventually will join the league were the opinions expressed here recently by Baron Tanetazo Megata, Japanese representative in the league councils, who passed through on his way home to Japan.
Baron Megata's opinions were expressed after he had read President Harding's "pronouncement of the league in his recent message to congress. "The league is still young," said the baron, "and, no doubt, has many defects, but already it has done powerful work. I regard the league as a most powerful agent for peace and I believe it will become more and more potent."
Baron Megata refused to make any comment on the questions involved in the allocation of the island of Yap to Japan by the supreme allied council.

HITCHCOCK SAYS HARVEY'S SPEECH 'DISCREDITABLE'

(By Associated Press)
WASHINGTON, D. C., May 20.—Ambassador Harvey's Purgim dinner address in London yesterday was described by Senator Hitchcock, leader of the fight for ratification of the treaty of Versailles in the senate, as a "discriminable performance."
"Colonel Harvey evidently forgot he was speaking as ambassador for the United States," said Senator Hitchcock in a formal statement. "His address was filled with improprieties."

WHITE CAPS AT MANHATTAN IS CUTTING LEDGE

Manhattanites are greatly excited over the report that the west crosscut from the 800-foot level of the White Caps mine is penetrating the great ledge whence such important discoveries have been made in the past on the 300 and 500-foot levels.
While the extent of the discovery cannot at this time be foretold, it is believed that the ore shoot will be found extending to the 800-foot point and if such proves to be the case, then a new era will dawn for the Pine Tree gold camp.
With the firing of the round of holes on Wednesday night a tremendous flow of water was encountered, and conditions in general are identical with those that occurred when the vein matter was being penetrated on the 500-foot level.

It will be several days before the water can be controlled, and in the meantime those interested in the future of the mine and district are living in a state of expectancy. In the event the great orebody is found to be persistent down to the 800-foot point, which seems to be a certainty, then the big milling plant of the White Caps company will shortly be brought into commission.
It became necessary to drive the west crosscut over 600 feet to reach the objective, and surveys have proven correct to the minutest detail. On the 500-foot level the vein matter was found to be over 40 feet wide, and there is every reason to believe that a similar state of affairs will be found to exist on the lower level.
With pay ore of the above width exposed on the 800-foot level, there is made available for stoping 500 feet of territory which should yield an enormous tonnage during future years.

The big vein was encountered within 200 feet of the end line of the Consolidated property, which, in effect, means that in due time the latter property will be undergoing extensive development with almost positive assurance that a heavy production of gold ore will follow.
Future exploration of ground on both the White Caps and Consolidated estates will be watched with interest by all having the best wishes for Manhattan at heart.

CUPID UNITES LOCAL COUPLE

The many friends of Denis Nolan and Miss M. Casey were surprised and pleased on receiving wedding cards which announced their marriage in Sacramento on Saturday, May 14. Mr. Nolan, who has been employed at the Extension mill for several years past, in the bulletin room left here with his sister last month to visit relatives near Carson. It now is evident that his journey was of more importance and that of enjoying a life of wedded bliss. The bride, who is a graduate nurse of Providence hospital, Washington, D. C., was one of the popular nurses at the Mine Operators' hospital in this city. The best wishes of the community are extended to the newlyweds. After a short honeymoon spent on the coast the happy couple will return to Tonopah to make this city their home.

MEXICO ANNOUNCES HER NAVAL PROGRAM

(By Associated Press)
MEXICO CITY, Mexico, May 20.—A naval building program calling for an expenditure of a sum equivalent to \$100,000,000, spread over a period of 10 years, has been submitted to the department of army and navy. It will be submitted to congress soon.

SURRENDERS TO POLICE

Frank Curran, who fired a pistol shot at Lee Hand about two weeks ago in the office of the Tonopah Auto Supply company, walked into the office of the chief of police this afternoon and surrendered. He was lodged in the county jail pending bail.
When an Iowa man attempted to hang himself, his son cut the rope and the father fell about 50 feet. What this father had to say to his son probably was rather ambiguous.

SHORTAGE OF FOOD IN SILESIA IS SAID GRAVE

(By Associated Press)
LONDON, May 20.—The food shortage in Upper Silesia has reached a crisis in magnitude and scope which, it is feared, will result in orders unless it is relieved shortly according to official British officials. The situation is grave. The situation is grave. The situation is grave.

(By Associated Press)
PARIS, May 20.—Reports that Germany would send troops to the Silesian region to assist in the suppression of the strike, which seems to be a certainty, then the big milling plant of the White Caps company will shortly be brought into commission.

MARTIAL LAW FOR TUG RIVER COAL SECTION IN W. VA.

(By Associated Press)
CHARLESTON, W. Va., May 20.—Governor Morgan today issued a proclamation declaring martial law in the Mingo county. The reason of this declaration was the strike of the miners.

(By Associated Press)
WILLIAMSON, W. Va., May 20.—The department of the Mingo county authorities has issued a notice in the paper that they had a mining region now remains their own when several days ago the Mingo county authorities had issued a notice that they had a mining region now remains their own when several days ago the Mingo county authorities had issued a notice that they had a mining region now remains their own.

FAMOUS SCIENTIST TO RECEIVE RADIUM

(By Associated Press)
WASHINGTON, D. C., May 20.—Madame Curie, the famous scientist, will receive a shipment of radium from New York, to be sent to her by the U. S. government. The shipment of radium, which had been purchased by the U. S. government, will be sent to her by the U. S. government.
